COLLEGE OF COMMUNICATION AND FINE ARTS
Dean Richard R. Ranta, Ph.D.

The College of Communication and Fine Arts is ultimately centered on visual and audible symbols whose rational and emotional values it is the mission of the College to create and explore. In the belief that perception is largely shaped by experience, the College of Communication and Fine Arts offers a range of symbolically rendered experiences, both individual and collective, in the hope of broadening and sensitizing the perceptions of its students. Through its various professional courses of study, it prepares students to work toward careers in architecture and design, the fine or applied arts, communication, or the performing arts, whether as practitioners, teachers, artists, or consultants. The College offers four degrees by which to accomplish its purposes:

The aims and purposes of The College of Arts and Sciences are, summarized in these words that serve as part of our official statement in the catalog issue of the University Bulletin: “The program of liberal studies aims (1) to provide students with a store of factual knowledge; (2) to introduce them to varying sets of principles; (3) to stimulate them to think about and to evaluate these facts and principles; and (4) to encourage them to order their own affairs and those of society with the talent, insight, and discrimination which they develop.” We have been privileged to pursue these aims with the following students who are candidates for the seven degrees which we offer:

THE SCHOOL OF COMMUNICATION SCIENCES AND DISORDERS
Dean Maurice I. Mendel, Ph.D.

The School of Communication Sciences and Disorders strives to instill students with the fundamentals of communication processes and disorders that provoke critical thinking and problem solving that leads to a love of learning. At the applied level, the master’s degree, in speech-language pathology (M.A.) and the clinical doctorate in Audiology (Au.D.) emphasize theoretical and applied aspects of communication disorders and prepare graduates for clinical careers within the fields and for further graduate study. At the research level, the doctor of philosophy (Ph.D.) program emphasizes the theoretical and applied aspects of communication disorders that prepare graduates for academic research and teaching positions within the field and for postdoctoral graduate study. The program is accredited by the American Speech-Language-Hearing Association. We are proud of the following graduates:

SCHOOL OF PUBLIC HEALTH
Dean, Lisa Klesges, Ph.D.

The School of Public Health provides graduate education, community practicum experience, and research training to develop students’ capabilities and address the growing need for a proficient public health workforce. The School offers two master’s degrees. The Master of Public Health provides concentrations in five core disciplines: biostatistics, environmental health, epidemiology, health systems management, and social and behavioral sciences. The Master of Health Administration degree is one of only 70 programs accredited by the Commission on Accreditation of Healthcare Management Education (CAHME). Our mission involves the translation of knowledge and research into community practice to tackle pressing societal problems of social and environmental justice, health disparities, unhealthy lifestyles, and accessible systems that support the health of individuals, families, and communities. We emphasize both discovery and application with the goal of moving “knowledge into action” locally, nationally and globally. We are proud of the following graduates:

MASTER OF HEALTH ADMINISTRATION
The candidates for this degree have majored in health administration with emphasis in the areas of non-profit administration or health policy and management.

The faculty of the Loewenberg School of Nursing are proud to present the men and women who have met all of the requirements for either the bachelor of science in nursing (BSN) or the master of science in nursing (MSN) degrees as set forth by the faculty. Fully understanding the importance of excellent professional nursing care to the health of the nation, BSN graduates are clinicians who are also well prepared for graduate study in nursing. The competency-based BSN program is fully accredited without recommendations for the maximum period of time by the National League for Nursing Accrediting Commission and the Commission for Collegiate Nursing Education. For the past decade, BSN graduates have had a 92% or higher pass rate on the NCLEX-RN examination.

With advanced preparation for practice as family nurse practitioners, nurse educators, or nurse administrators, our MSN graduates are prepared to shape the future of healthcare in our nation. The MSN program is fully accredited without recommendations for the maximum period of time by the Commission of Collegiate Nursing Education.

THE COLLEGE OF EDUCATION, HEALTH AND HUMAN SCIENCES
Dean, Donald I. Wagner, Ph.D.

The most historic college at the University of Memphis, the College of Education is nationally accredited and seeks to prepare teachers, education related professionals, and other licensed human service professionals to become effective leaders within their chosen career. The College holds the distinction of being one of the few in the nation to meet, without a weakness, National Council for the Accreditation of Teacher Education (NCATE) standards.

In addition to high-quality classroom instruction, most programs are field based. Practical experiences and opportunities for participation in exciting hands-on training and research exist at our award winning Campus School, the Barbara K. Lipman Early Childhood School and Research Institute, our local Professional Development Schools, the nationally known Center for Research in Educational Policy, and internship programs in various community businesses and agencies, all where experts in the student’s field of study and University faculty work together to provide valuable on-the-job experience. The College offers off-campus courses at our Collierville, Jackson, and Dyersburg campuses and is a state leader in alternative online degree and licensure programs.

Undergraduate programs administered by the College lead to the Bachelor of Science in Education and consist of three basic areas of work: General Education, Professional study, and study within one of 12 areas of Specialty. It is the work within a specialty that determines a student’s major. Graduate level studies at the College include 29 Master’s and 17 Doctoral degree programs. And, in administering 33 teacher licensure programs, The College of Education is the largest producer of teachers in Tennessee.

EDUCATION SPECIALIST

The candidates for this degree have placed emphasis on such areas of study as instruction and curriculum leadership, leadership and policy studies, higher and adult education, counseling, school psychology or educational psychology and research.

The Fogelman College of Business and Economics offers a comprehensive undergraduate degree, the Bachelor of Business Administration degree. The goal of the undergraduate program of the Fogelman College of Business and Economics is to provide the basic education needed to prepare a person to enter the field of business and to move rapidly from an entry level position into a managerial position.

We believe the curriculum that best accomplishes this goal consists of four components. First, a broad foundation of course work is provided in the liberal arts and sciences. At least 40 percent of the work taken by each student in the Fogelman College of Business and Economics is in the humanities, the social sciences, the natural and physical sciences, communications, and mathematics.

Second, the curriculum includes a significant amount of study of the economic and legal environment of business and introduces each of the major functional fields of business-management information systems, accounting, finance, management, and marketing.

Third, the curriculum provides for a choice of a major by the student. The student is permitted to select a major from accounting; business economics, with a concentration in financial economics; finance with concentrations in business finance, real estate, and risk management and insurance; hospitality resort management; international business; management; management information systems; marketing management; sales; logistics supply chain management. Fourth, the Bachelor of Business Administration curriculum provides students with a number of open electives. Through these electives, the student may select courses particularly suited to her or his own interests, thus providing an opportunity for the student to pursue in greater breadth and depth the study of business or related fields.
