The School of Public Health provides graduate education, community practicum experience, and research training to develop students’ capabilities and address the growing need for a proficient public health workforce. The School offers two master’s degrees. The Master of Public Health provides concentrations in five core disciplines: biostatistics, environmental health, epidemiology, health systems management, and social and behavioral sciences. The Master of Health Administration degree is one of only 70 programs accredited by the Commission on Accreditation of Healthcare Management Education (CAHME). Our mission involves the translation of knowledge and research into community practice to tackle pressing societal problems of social and environmental justice, health disparities, unhealthy lifestyles, and accessible systems that support the health of individuals, families, and communities. We emphasize both discovery and application with the goal of moving “knowledge into action” locally, nationally and globally. We are proud of the following graduates:

The College of Communication and Fine Arts is ultimately centered on visual and audible symbols whose rational and emotional values it is the mission of the College to create and explore. In the belief that perception is largely shaped by experience, the College of Communication and Fine Arts offers a range of symbolically rendered experiences, both individual and collective, in the hope of broadening and sensitizing the perceptions of its students. Through its various professional courses of study, it prepares students to work toward careers in architecture and design, the fine or applied arts, communication, or the performing arts, whether as practitioners, teachers, artists, or consultants. The College offers four degrees by which to accomplish its purposes:

THE UNIVERSITY COLLEGE

Executive Dean UofM Global/Academic Innovation, Richard Irwin, EDD

The University College provides interdisciplinary educational opportunities in a flexible, relevant format for a diverse community of traditional and non-traditional adult learners. Established in 1975, the college is an innovator of new programs, a catalyst for interdisciplinary and multidisciplinary efforts throughout the campus, and a facilitator for the community to interact with the University. Students may also take advantage of the unique opportunity to petition for college credit for the knowledge, training, and skills acquired through professional experiences. University College offers individualized programs of study, allowing students to combine several areas of emphases in order to design their own degree. Additionally, we offer interdisciplinary degrees not traditionally offered by other colleges on campus. These include a Bachelor of Professional Studies and a Bachelor of Liberal Studies in over 20 concentrations including Child Development & Family Studies, Merchandising, Legal Studies, and Religious Studies. Our Graduate Program offers a Master of Arts in Liberal Studies degree, allowing students the option to design their own graduate individualized program of study. We also offer a completely online Master of Professional Studies program with concentrations in Strategic Leadership, Human Resources Leadership, and Training and Development.

MASTER OF ARTS IN LIBERAL STUDIES

The candidates have completed a required core of Liberal Studies courses, an interdisciplinary Coordinated Study of Liberal Studies courses from the College of Arts and Sciences and The College of Communication and Fine Arts, and a Special Project in Liberal Studies.

DOCTOR OF EDUCATION (Continued)
The most historic college at the University of Memphis, the College of Education is nationally accredited and seeks to prepare teachers, education related professionals, and other licensed human service professionals to become effective leaders within their chosen career. The College holds the distinction of being one of the few in the nation to meet, without a weakness, National Council for the Accreditation of Teacher Education (NCATE) standards. In addition to high-quality classroom instruction, most programs are field based. Practical experiences and opportunities for participation in exciting hands-on training and research exist at our award winning Campus School, the Barbara K. Lipman Early Childhood School and Research Institute, our local Professional Development Schools, the nationally known Center for Research in Educational Policy, and internship programs in various community businesses and agencies, all where experts in the student's field of study and University faculty work together to provide valuable on-the-job experience. The College offers off-campus courses at our Collierville, Jackson, and Dyersburg campuses and is a state leader in alternative online degree and licensure programs. Undergraduate programs administered by the College lead to the Bachelor of Science in Education and consist of three basic areas of work: General Education, Professional study, and study within one of 12 areas of Specialty. It is the work within a specialty that determines a student’s major. Graduate level studies at the College include 29 Master's and 17 Doctoral degree programs. And, in administering 33 teacher licensure programs, The College of Education is the largest producer of teachers in Tennessee.
